**CRITERION I – CURRICULAR ASPECTS**

**1.1 – Curriculum Planning and Implementation**

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Public College, Samana was established way back in 1969 with definite goals and objectives. The primary concern of the institution includes taking higher education to the very grass root level of people living in nearby rural areas. The college has undergone the process of assessment and accreditation and established IQAC which is striving for quality enhancement in academic and other activities. It has evolved an effective mechanism for the well-planned curriculum delivery which is always at the center point of academic activity. The college is affiliated to Punjabi University, Patiala and has implemented the curriculum, examination pattern and evaluation process as per University recommendations. The curriculum is designed by the Board of Studies of Punjabi University. Many teachers of the college are members of the Board of Studies and give suggestions for amendments in the curriculum when required. There is a semester pattern for all graduation and post graduation programmes. Academic calendar is prepared at the beginning of each academic session in accordance with the directions given by Punjabi University. The academic calendar includes schedules of mid semester tests, co-curricular activities, extension lectures and other academic activities and is published in college prospectus. Classroom tests are conducted periodically. Slow learners are identified by classroom interaction with the students and remedial classes are provided to them when required. Educational trips and excursions are conducted for imparting on field learning experiences to the students. Participation of students in classroom interaction is encouraged to boost up their confidence. Group discussions and seminar presentations are planned to impart language skills. Viva-voce of practical examinations are conducted under supervision of an external examiner appointed by the University. The use of ICT, interactive boards etc. is encouraged for better learning experiences. The Principal monitors all the academic activities and follow up is taken in the meetings with department heads. IQAC is keen on maintenance of records of every academic activity, teaching plan, outcome of class tests, internal assessment scheme etc.

### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Regular and effective implementation of mentoring system in an institution helps and ensures the smooth working of that institution. It is considered an integral part of a college. The student mentoring in our college focuses especially on improving students' attendance and academic performance. The goal seems achievable when there is a cordial relationship between teachers and students which is a significant aspect of mentorship program. In our college all teachers act as mentors to the students. Entry level students need special guidance as they are not familiar with campus and its rules and regulations. Keeping this in mind an induction program is conducted every year at the start of the session to familiarize them with the rules and regulations of the college. The faculty members play an active role in helping the students identify and resolve their problems. Students are encouraged to participate in different activities organized by different department. They are motivated to be a part of different clubs formed in the college. This helps them inculcate and develop leadership and management qualities that prepare them well for the work culture they will be exposed to later in their lives. Counselling sessions are arranged by the mentors to ensure regularity and punctuality of the students. Students suffering from any medical issues are offered moral and financial assistance. Placement cell has played a significant role in boosting the morale of the students as getting a job immediately after completing their studies make them self-reliant.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The concept of internal evaluation has been introduced by the University and a semester pattern of examination for both Undergraduate and Postgraduate classes have been introduced. College conducts mid semester examinations every semester. Once evaluated by the respective teacher the answer sheets will be shown to students in class so that the students will have an opportunity to clear their questions and doubts. For those students who fall short of the minimum requirements set by the university, retests are held. Students are granted a unique chance to pass the tests if they miss their opportunity to participate in midterm exams because of their involvement in other activities like sports, cultural events, NCC, and NSS. The students maximum attendance is ensured with the utmost attention. The students are informed at the earliest of the outcomes of the internal examinations. While handing out answer sheets the concerned subject teachers provide feedback to the students. The students are apprised of their accomplishments and areas for growth. Based on their proficiency in language, communication, and presentation, students subject knowledge is assessed. The students are expected to turn in their home assignments on time. The instructor sets up group discussions in the classroom. Prior to university exams, the internal examination committee evaluates students performance through internal evaluation processes that they develop and carry out. The college takes precautions to safeguard the examination process confidentiality. A copy of the university direction is distributed to the faculty whenever the evaluation technique is changed in accordance with university policy. The registrar meets with the principal to discuss the overall performance of the students. Faculties use student performance on internal assessments to identify slow and advanced learners in many subject areas. Counselling is used to motivate slow learners to do better in the future. Counselling sessions are utilized to address both academic and non-academic challenges as well as personal ones.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

College carefully arranges all its activities according to the calendar provided by Punjabi University. The academic calendar lists and largely indicates all the activities for the whole session. The college publishes this academic calendar in the college Prospectus as well. This makes it easier for both teachers and students to receive the information they need about the sessions scheduled curriculum. In sessions led by the principal, details about

any curriculum revisions are discussed. An institute-level calendar is created by the institute and contains information like the total number of working days and holidays, CIE dates, and dates for the institutes annual programmes. The calendar also includes schedule of guest lectures, workshops, and other co-curricular and extracurricular activities. Faculty members can arrange their own course delivery, research projects, academic assignments, and extracurricular activities with the use of academic calendars. Department heads closely oversee and monitor the completion of the syllabus in accordance with the faculty members planned division of the syllabus. Each CIEs syllabus is defined in advance, and faculty members follow it.

## 7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

**Title 1: Learning and Guidance** Learning programme provides personalized support to students and aids in professional specialization. It serves as the platform to be student centric and ensures the development of holistic individuals. Learning programme facilitates establishing a vibrant relationship with the students and teacher. Objective:

- To achieve the vision of the institution viz, to develop all round personality of the students on progressive lines.
- To provide a continuous learning process for both the learner and the learner.
- To establish the tutor as a role model and to support the mentor for personal and academic development. The nature of student's background i.e catering to different socio cultural and economic diversity necessitates mentoring being opted as one of the best practices by the institution. The absence of institutionalized system of having a mechanism of mentoring guidance and counselling in the region along with the obvious fact that some of the students are from remote areas and first generation learners makes it imperative on the part of the institution to provide mentoring i.e guidance for all round development of the students on academic as well as aesthetic lines. Moreover, it is aimed align with the institutional mission and vision statement aiming to develop students on progressive lines. Finally, it was decided to start a scheme with our own students through various guidance programmes which imparts more interaction with students to develop their shyness, furnish language, Etiquettes, confidence in study or in their personal life too. Problems encountered and resources required
- Problems are encountered in regards to the diversity in student's background and upbringing i.e lack in the art of effective articulation, introversion and indifferent attitude etc.
- Students are shy to interact with low level of confidence and dialect too. Even they are unable to embark their problem to the mentor. It was just like to sketch something on plane canvas or plantation on bare lands in deserts. Such inhibition and lack of confidence prevents the students from actively utilizing the mentoring programme.

**7.2 Best Practice 2: Title of the practice: Green campus initiative** Objective:

- Harnessing sustainable energy
- Follow sustainable construction practices.
- Energy and water conservation measures.
- Establish campus renewable energy sources like roof top solar power plants, etc.
- Solid waste management. The institute believes that it is important for us to be involved in environmental issues therefore we engage the campus community and take care of the environment and surroundings. Our ambition is to stimulate each student and staff to increase their knowledge about environmental issues and be aware about our duties and responsibilities towards environment. The institute also takes advantage of natural lighting and study light needs in the different areas of the classrooms and work places. We encourage our students and staff to turn off lighting in unoccupied spaces. Our efforts are more in the direction to improve the environmental impact and to support Mother Nature. Some details of which are as follows:
- The institute has developed beautiful campus with lawns and botanical gardens.
- The institute is using renewable energy like solar energy.
- The institute has preserved Flora and Fauna on the campus.
- The institute organises seminars and workshops on environment related issues.
- For safety and security measures, the institute have fire extinguishers and CCTV system in campus.
- Protected water supply measures with RO drinking water machines are installed. Problems encountered and resources required
- Green campus initiatives are challenging, so it requires determination and a long term assurance from all the stakeholders.
- Green campus initiative is rather expensive practice. It needs an expert advice and investment of resources.
- Sufficient manpower to maintain them.
- Less awareness of students and community towards environmental issues.

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The campus of our institutes has lush green surroundings which has a spread over huge acres of land. Apart from having pollution free area, it has beautiful infrastructural developments in its covered area which describes its distinctiveness. The institute has big and well maintained lawns, sports stadium, computer Labs, Science laboratories, classrooms and hostels with all facilities. In this way, the institutes in its huge campus are catering to the needs of society with its own attributes which makes it 'distinct'. This infrastructural development is the highlighting feature of the succeeding strengths of the institutes and consists of attributes like:

- **Blocks and Buildings:** The institutes have modern buildings, well equipped labs, air conditioned seminar hall, big classrooms, and playgrounds for all major sports, gymnasium, facilities for indoor games and canteen etc. which makes the campus a richly liveable and lovable place to get wholesome education. Air-cooled rooms with attached bathrooms and hot-water geyser facility are available in the institute's hostels. Fully furnished guest house is available in the campus for official guests.
- **Laboratories:** In order to provide hands on training and practical exposure to the students, the institute is going beyond the syllabus prescribed by the University and has made centres of excellence in various departments. For teaching staff: The College encourages young and newly recruited faculty to participate in FIPs and enhances skill development of teachers through FDPs/Refresher Courses/Workshop. Teachers are motivated to attend Workshops and hands-on training for skill development which focuses on preparing for classroom lectures and meaningful teacher-student engagement. The teachers have taken up minor and major research projects, funded by the University /UGC. The College values the long-term physical and emotional well-being of its teachers in order to support their teaching-learning, research and organisational roles and responsibilities. The School of Happiness plays an important role in this endeavour by organising talks, yoga and meditation sessions. The College extends administrative support for faculty to engage in curriculum development, content creation, question paper setting and evaluation. For non-teaching staff: Administrative and accounts related workshops for non-teaching staff have been held for updating knowledge and skills. Non-teaching staff organise regular talks and seminars and attend programmes in other colleges/universities. Non - teaching staff has been provided training in the application HAMMER software. The Non-teaching staff are involved in supporting faculty in organising various programmes, which has enhanced their work spectrum. For students: Personality development course are offered for students of all disciplines to groom and make them industry-ready. Bridge courses for students, supporting the curriculum and for advanced studies, are regularly organised. Students are encouraged to organise a wide range of activities under the umbrella of department. Special training courses are offered to prepare the students to face competitive exams and entrance tests. Students are encouraged to identify, explore and develop their hidden talents and potential through a wide array of societies, promoting extracurricular activities. Students are largely involved in the participation of youth festival activities and other cultural events.

### 8.Future Plans of Actions for Next Academic Year

The college IQAC has identified the broad objectives which the college should strive to achieve in the future. To encourage faculty in various research related

activities and participation in workshops/seminars/FDP etc. To create an enabling environment for wholistic development of students, faculty and support staff. To provide more space for faculty and students in the canteen. To upgrade library resources to include digital content. To implement structural and electrical repairs to the building in consultation with the management. To continue to provide formal education to needy and deserving students by providing fee concessions, fee waivers, book bank facility etc. To reward the students for various achievements in different areas.
